## UNDERGRADUATE INTERVIEW VIDEO QUESTIONS

For application to the Bachelor of Music in Music Education (BMME) at The University of Arizona.

**Directions:** Please submit a video recorded “Interview,” in which you answer the questions listed below. This submission allows faculty reviewing your materials to also see and hear your speaking skills and know more about your experiences. Upload the video through your existing Acceptd application for the School of Music. Your responses should be delivered in a professional, yet comfortable, way.

1. Please state your name and provide your primary voice type and/or instrument(s).
2. Why have you decided to study music in college?
3. Why do you want to become a music educator?
4. Recall an inspirational music teacher you currently have or have had in the past. Please share some of the teacher’s personal and/or professional traits you found inspirational.
5. Please share any situations in which you have worked with students/children or acted in a *teaching* capacity. Discuss any positive experiences occurring during those interactions. (These do not have to be only music contexts).
6. Please share one or two examples of times or situations in which you have served in a leadership position different from any teaching experience described in the last prompt (e.g. HS welcoming mentor, manager at restaurant, youth group leader). Discuss any positive experiences occurring during those interactions.
7. Please provide a closing statement indicating why you applied specifically to the University of Arizona’s Music Education Undergraduate Program.

Thank you for your interest in the University of Arizona School of Music’s Music Education Program! We look forward to reviewing your materials.
